

Criterion E: Product development

Complex techniques used:

1. Technique: Managing the site and templates for wiki pages
2. Technique: Using Wikitext to customize pages and improve functionality
3. Technique: Organizing teams using Excel
4. Technique: Creating the podcast and linking it to the website

Other techniques used:

5. Technique: Manipulating graphics
6. Technique: Using YouTube widgets

At least three complex techniques are used in the wiki. Other techniques that are important for the product are also identified. This page provides a structured approach to the justification that follows.

Organisation of the website (Document object model)

The main page of the Digiteen Compass Website demonstrates the main navigation used.

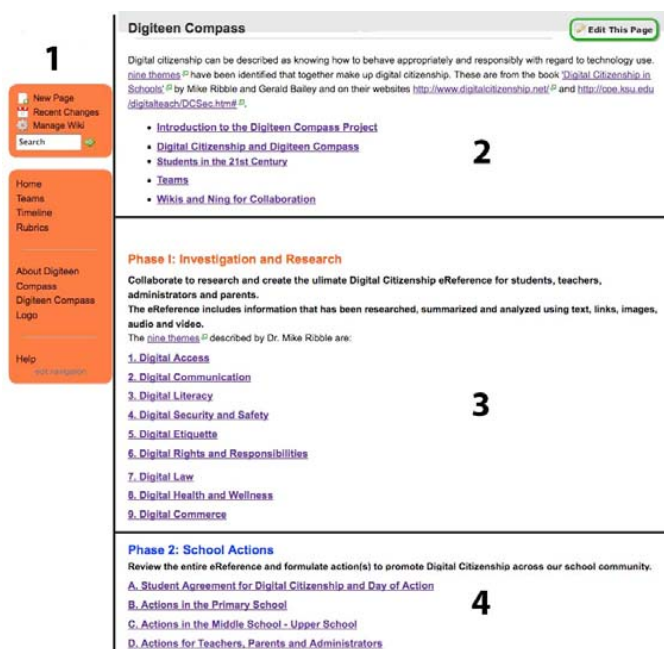

1: indicates the management frame and the navigation frame :

- Teams
- Timeline
- Rubrics
- About Digiteen Compass
- Logo
- Help

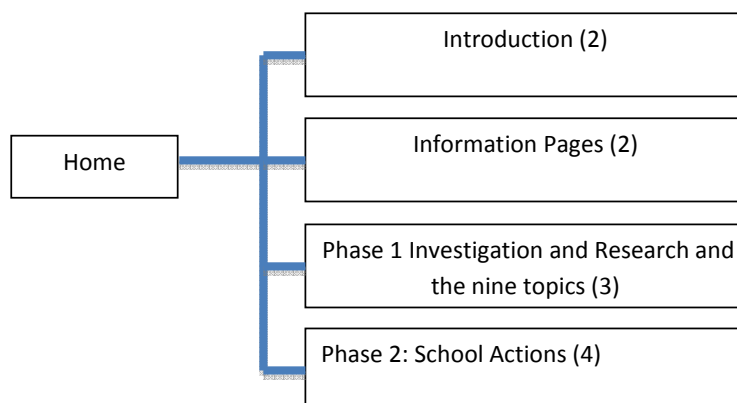

2: Introductory and Information Pages for the Digiteen Compass project

3: Phase 1: the 9 areas for investigation and research by the Grade 8 Students

4: Phase 2: the 4 areas for school action by the Grade 8 students

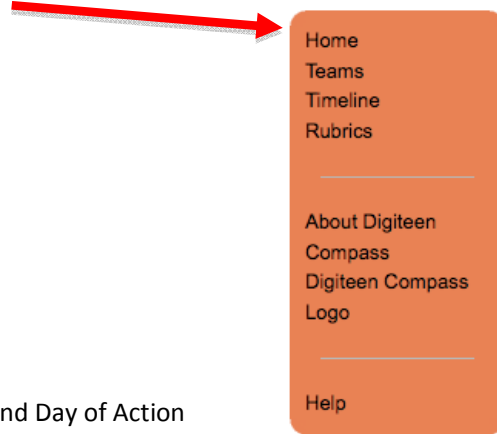

This indicates how the home page of the website <http://digiteencompass.wikispaces.com> is structured:

The content has been organized in four main groups:

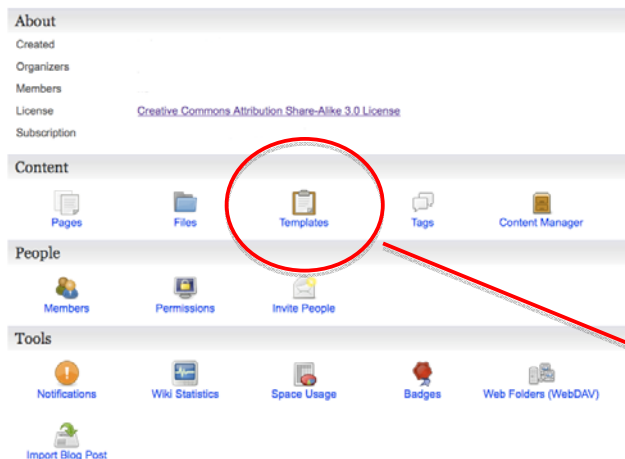

1. Introduction section to the Digiteen Compass Project,
2. Information pages: Digital Citizenship and Digiteen Compass, Students in the 21st Century, Teams, Wikis and Ning for Collaboration.
3. Phase 1 Investigation and Research and the nine topics:
 - Digital Access
 - Digital Communication
 - Digital Literacy
 - Digital Security and Safety
 - Digital Eitiquette
 - Digital Rights and Responsibilities
 - Digital Law
 - Digital Health and Wellness
 - Digital Commerce.
4. Phase 2 School actions:
 - Student Agreement for Digital Citizenship and Day of Action
 - Actions in the Primary School
 - Actions in the Middle School - Upper School
 - Actions for Teachers, Parents and Administrators

1. Technique: Managing the site and templates for wiki

The “Digiteen Compass” wiki is managed using the Manage wiki menu. The template **Action_wiki** and **Main Topic** were used to create the website.

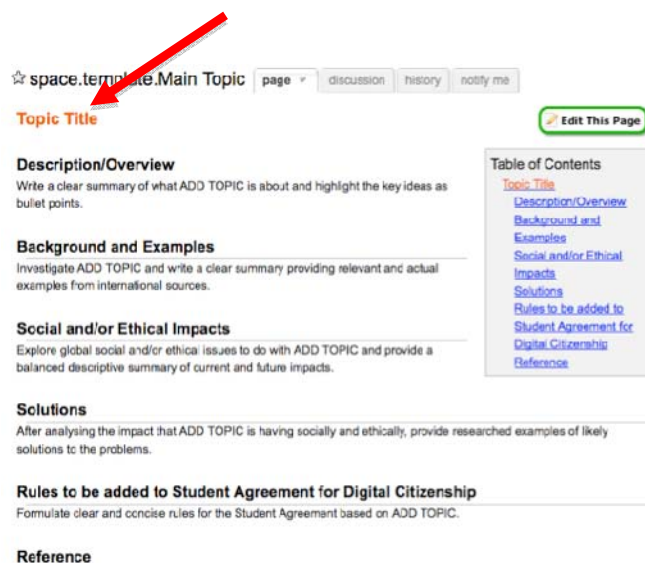

Manage Wiki: digiteencompass

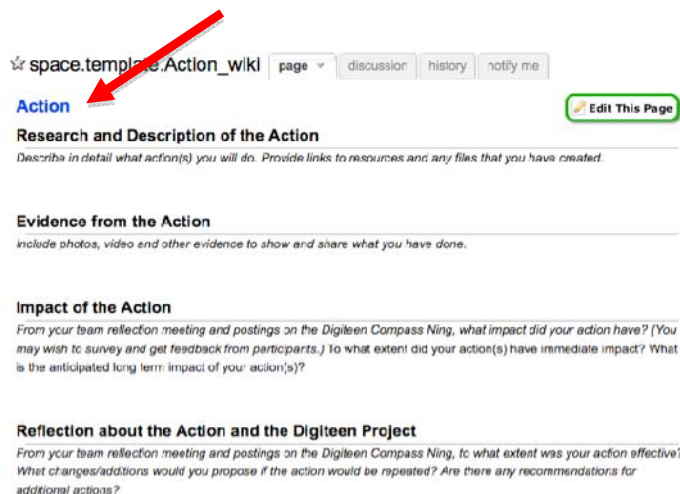

Existing Templates

Name	Date Edited
Action_wiki	Feb 18, 2009 9:37 pm
Main Topic	Feb 19, 2009 10:59 pm

The **Main Topic** template was used to create the templates for Phase 1 Investigation and Research and the nine topics :

The **Action_wiki** template below was used to create the templates for Phase 2 School actions and is used to create the four collaboration pages to be used by the teams.

☆ space.template.Action_wiki | page | discussion | history | notify me

Action Edit This Page

Research and Description of the Action
Describe in detail what action(s) you will do. Provide links to resources and any files that you have created.

Evidence from the Action
Include photos, video and other evidence to show and share what you have done.

Impact of the Action
From your team reflection meeting and postings on the Digiteen Compass Ning, what impact did your action have? (You may wish to survey and get feedback from participants.) To what extent did your action(s) have immediate impact? What is the anticipated long term impact of your action(s)?

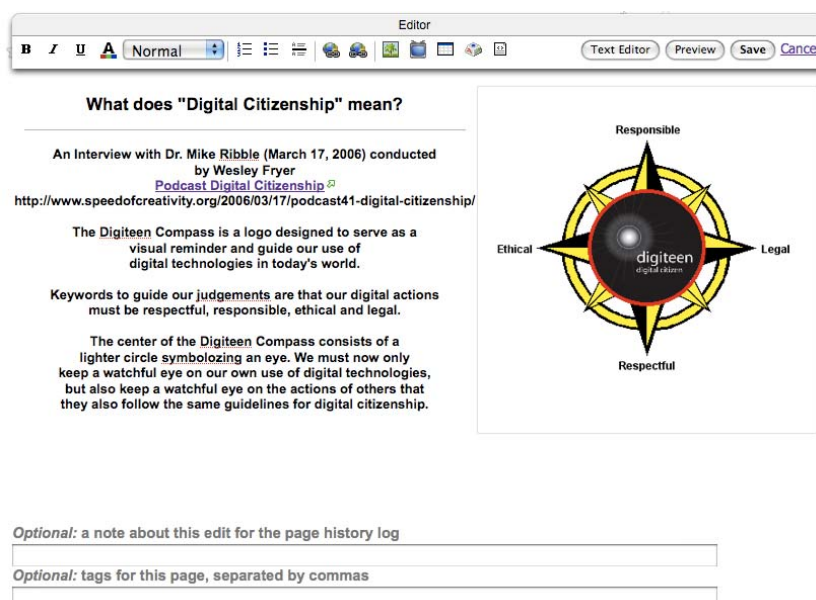

Reflection about the Action and the Digiteen Project
From your team reflection meeting and postings on the Digiteen Compass Ning, to what extent was your action effective? What changes/additions would you propose if the action would be repeated? Are there any recommendations for additional actions?

Arrows, circles and other indicators are used to show specific areas of the screenshots. Each screenshot is referred to from the text.

2. Technique: Using Wikitext to customize pages and improve functionality (page X)

It is possible to edit pages using the visual editor and/or the text editor. At times it is necessary to use the Wikitext code in order to edit pages and add functionality to pages. For some reason, the visual editor does not always allow a necessary edit and it is only possible to complete the edit through editing the actual Wikitext. A complete Wikitext guide is available through the Help menu. An example of a webpage and the underlying Wikitext is below.

Screenshot Using the Visual Editor:

What does "Digital Citizenship" mean?

An Interview with Dr. Mike Ribble (March 17, 2006) conducted by Wesley Fryer
Podcast Digital Citizenship
<http://www.speedofcreativity.org/2006/03/17/podcast41-digital-citizenship/>

The Digiteen Compass is a logo designed to serve as a visual reminder and guide our use of digital technologies in today's world.

Keywords to guide our judgements are that our digital actions must be respectful, responsible, ethical and legal.

The center of the Digiteen Compass consists of a lighter circle symbolizing an eye. We must now only keep a watchful eye on our own use of digital technologies, but also keep a watchful eye on the actions of others that they also follow the same guidelines for digital citizenship.

Optional: a note about this edit for the page history log

Optional: tags for this page, separated by commas

The line under ***What does “Digital Citizenship” mean?*** Was not editable in the visual editor, but by understanding and editing the Wikitext, it could easily be deleted using the text editor.

[Home](#) > [Wikitext](#)

Wikitext is the markup language for wikis. Here you can find out the text markup rules that Wikispaces uses. Remember that you can skip wikitext entirely by using the visual editor. However, if the visual editor is not available (as in certain browsers like Safari), knowing some wikitext could be useful. You might also use wikitext if you would like to format discussion posts or if you would like to add advanced features to your Wikispace, such as anchors or includes.

Optional: a note about this edit for the page history log

Optional: tags for this page, separated by commas

Removing ---- in the text editor removed the line.

Also the size of the image **digitalcompasslogo.jpg** and the alignment is controlled by adjusting the Wikitext for **width="321" height="316 align="left"** .

The following shows the Wikitext commands for adding and editing images.

Home > Wikitext > Wikitext Images, Files, and Tables

How Do I Add Images in Wikitext?

The syntax for adding and editing images in wikitext is in the below table.

attribute	example	result	description
image:imagenam	[[image:www-wikispaces-logo.gif]]	www-wikispaces-logo.gif	include uploaded image
width="pixel"	[[image:www-wikispaces-logo.gif width="20"]]	www-wikispaces-logo.gif	determine width of image
height="pixel"	[[image:www-wikispaces-logo.gif height="80"]]	www-wikispaces-logo.gif	determine height of image
align="left"	[[image:www-wikispaces-logo.gif align="left"]]	www-wikispaces-logo.gif	Float the image to the left and wrap the text around it
align="right"	[[image:www-wikispaces-logo.gif align="right"]]	www-wikispaces-logo.gif	Float the image to the right and wrap the text around it
align="center"	[[image:www-wikispaces-logo.gif align="center"]]	www-wikispaces-logo.gif	Center the image in the middle of the page or table cell
link="page"	[[image:www-wikispaces-logo.gif link="image tags"]]	www-wikispaces-logo.gif	Make the image a link to another page or URL
caption="an image caption"	[[image:www-wikispaces-logo.gif caption="This is the Wikispaces logo"]]	<div>This is the Wikispaces logo</div> <div>This is the Wikispaces</div>	Adds a caption for the image

3. Technique: Organizing teams using Excel

In order to create the names from the school database, the administrator exported the first and last names of all grade 8 students by homeroom into a spreadsheet. The concatenate and right functions in Excel were used to create the anonymized Names for the wiki.

=CONCATENATE(A1,RIGHT(B1,1))

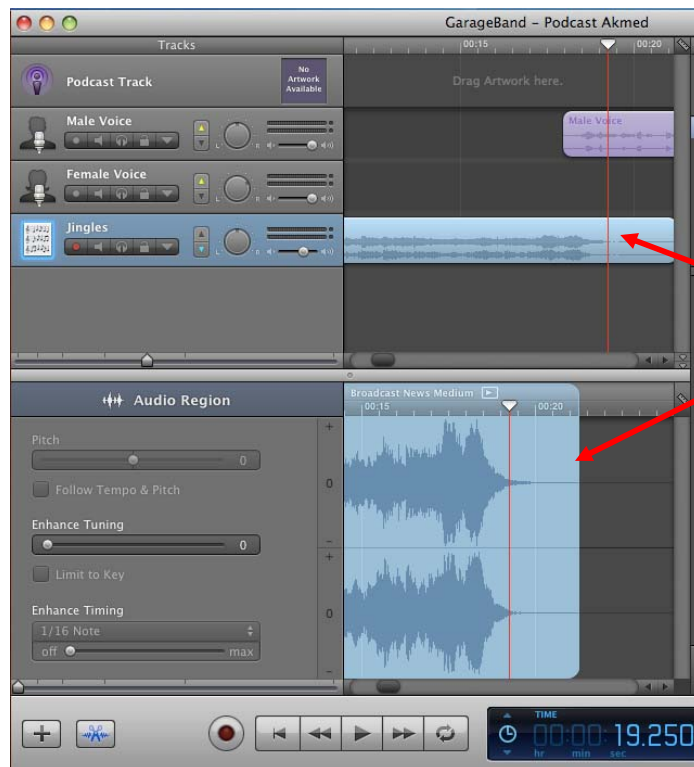

Names on the Digiteencompass wiki are publically viewable and this formula anonymizes the identity of the students.

	A	B	C	D
1	Adesola	NIGERA	=CONCATENATE(A1,RIGHT(B1,1))	
2	Alice	REED	Alice D	
3	Bashar	AMIJAR	BasharR	

4. Technique: Linking podcast to the website

Two podcasts are included on the “Digiteen Compass” wiki. One greeting from Ms. Akmed to join the project and another podcast from an expert on digital citizenship, Dr. Mike Ribble, whose work formed the basis for the wiki.

Garageband was used to include music loops and record Ms. Akmed’s voice. There were pauses and breaks in the recording that were edited out of the sound track by highlighting the sound and cutting the parts of the sound track that was not wanted. The sound track runs smoothly now.

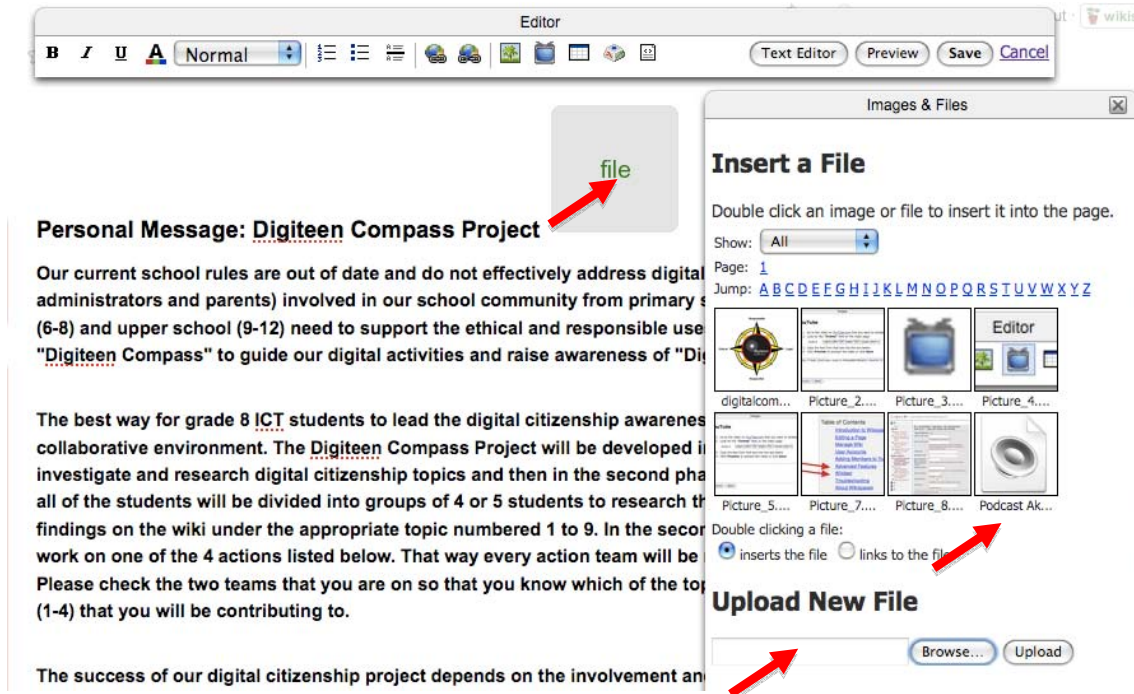

The above screenshot shows the sound track in purple and the same sound track in blue (red arrow). In order to make the podcast exciting, modern news-breaking music loops were added at the beginning and end. It was phased in and out and overlapped with the voice track.

The sound was then exported using the share menu and selecting MP3 encoder and high quality. Since the podcast is not very long, high quality only creates 1.1 MB file.

The podcast then is imported on the page by using the edit tools in the visual editor. First the Browse feature was used followed by Upload. The file was placed within the text when the icon under Insert a File was clicked.

This shows the resulting podcast to the right of the title Personal Message: Digiteen Compass Project.

Second Podcast

Another podcast from the interview with Dr. Mike Ribble by Wesley Fryer was downloaded from the Internet and then linked using the icon on the visual editor to the webpage. Dr. Mike Ribble is the expert who first used the terminology "Digital Citizenship".

17th March 2006 **Podcast41: Digital Citizenship**
 posted in [podcasts](#) |
 Dr. Mike Ribble recently defended his dissertation at the College of Education at Kansas State University on the topic of Digital Citizenship. In this interview with Mike, he defines digital citizenship, discusses its importance in the K-12 curriculum, and outlines digital citizenship resources he has created online and for print publication. Just as the traditional U.S. school curriculum has sought to help students understand both their rights and responsibilities as citizens of a democratic republic, Mike contends students should learn about their digital rights as well as responsibilities in 21st century society. These topics include Digital Safety, but also extend to Digital Etiquette, Communication, Education, Access, Commerce, and Security.

Program Length: 25 min, 04 sec
 File size: 6.0 MB

What does "Digital Citizenship" mean?

An Interview with Dr. Mike Ribble (March 17, 2006) conducted by Wesley Fryer

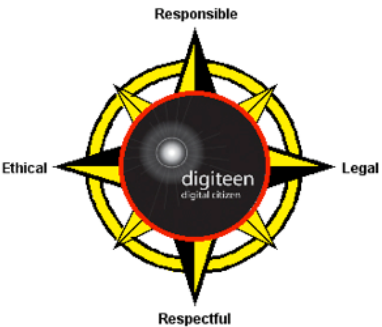

[Podcast Digital Citizenship](#) 

<http://www.speedofcreativity.org/2006/03/17/podcast41-digital-citizenship/> 

The Digiteen Compass is a logo designed to serve as a visual reminder and guide our use of digital technologies in today's world.

Keywords to guide our judgements are that our digital actions must be respectful, responsible, ethical and legal.

The center of the Digiteen Compass consists of a lighter circle symbolizing an eye. We must now only keep a watchful eye on our own use of digital technologies, but also keep a watchful eye on the actions of others that they also follow the same guidelines for digital citizenship.

Sources are cited appropriately on the web page.

5. Technique: Manipulating graphics

The digiteen digital citizenship logo was downloaded from the Internet and a logo for digiteen was created by a grade 8 student using Adobe Photoshop. The two were combined with text to create the digiteen compass logo. The letters N – E – S – W were replaced by digital citizenship concepts.

<http://www.molsci.csiro.au/library/gifs/compass.gif>

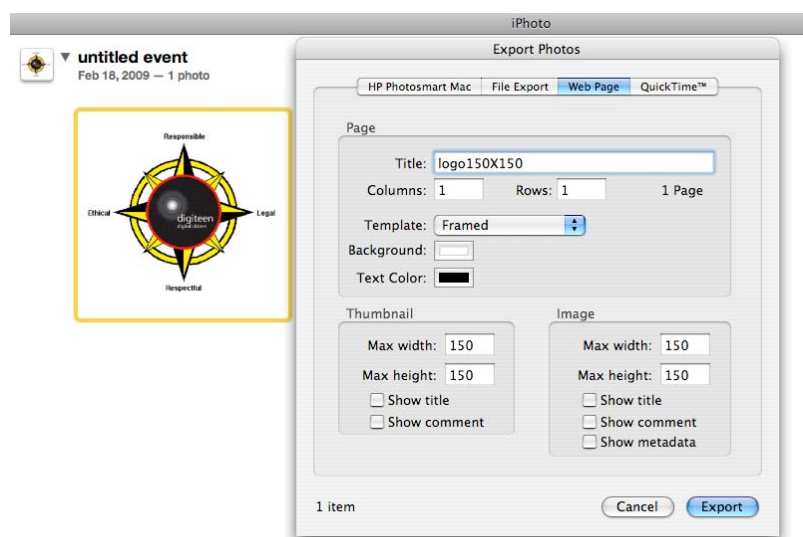

Sources are cited appropriately.

Image created by a Grade 8 student for a digiteen project using Adobe Illustrator. Copyright free.

The image is particularly effective because it appears to be an eye somewhat showing that we should keep an eye on our digital activities and also on others.

The size of the logo was changed so that it could be used in the top left corner of the website as well as used as a logo on the website. This helped to unify the theme of “digiteen compass” throughout the website.

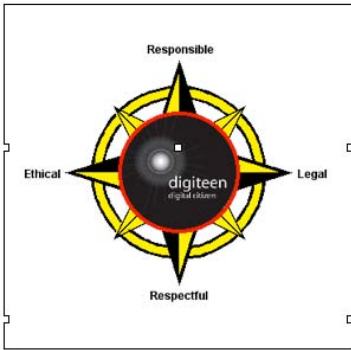

The logo was uploaded to the website using the upload images and files icon. First you have to use the browse and upload buttons in the right window. Then click on the icon under “Insert a File” to place it on the wiki page.

Digital Citizenship and the Digiteen Compass

The Digiteen Compass is a circular diagram with a black center containing the word "digiteen" and "digital citizens" below it. Four yellow arrows point outwards from the center, labeled "Responsible" (top), "Legal" (right), "Respectful" (bottom), and "Ethical" (left). The compass is surrounded by a yellow ring with black dots.
